PRESS RELEASE

21 August 2024 09:00:00 CEST

BOAT SHOW PREMIER FOR NIMBUS 495 FLYBRIDGE AT CANNES YACHTING FESTIVAL IN SEPTEMBER

Nimbus Group AB (publ) will for the first time display the new Nimbus 495 Flybridge at a boat show and the premiere will take place at the Cannes Yachting Festival starting on September 10. With the Nimbus 495 Flybridge, the Nimbus Group enters a new segment, and the model has attracted great interest from trade press and customers alike.

The Nimbus Group will organize a special VIP event the weekend before the fair where specially invited guests will have a chance to get to know the Nimbus 495 Flybridge more closely. Recently, the first boat was delivered to a customer and the interest in the boat has been huge.

"The Nimbus 495 Flybridge is a boat that has it all, and with its size and comfort it offers an extraordinary boating experience. The boat is aimed at customers in a smaller segment in terms of volume, but still plays a decisive role in the implementation of Nimbus Group's stated growth strategy," says Jan-Erik Lindström, CEO of Nimbus Group.

The Nimbus 495 Flybridge measures approximately 49 feet, approximately 15 meters, and is the largest boat launched by Nimbus Group to date. The Nimbus 495 Flybridge summarizes Nimbus' long experience in building boats adapted to different waters and combines the best of the solutions that Nimbus Group has developed since its inception in 1968. The 495 Flybridge is an ideal vessel for those who want to cover great distances and to be out at sea or in the archipelago for a long period of time.
