PRESS RELEASE

06 March 2025 09:30:00 CET

SWEDISH PREMIERE FOR AQUADOR 400 HT AS NIMBUS PARTICIPATES IN THIS YEAR'S ALLT FÖR SJÖN

When the boat show Allt för sjön kicks off today at Stockholmsmässan, Nimbus Group AB will for the first time showcase the new Aquador 400 HT to the Swedish public. At the fair, Nimbus Group will exhibit a total of 16 boats representing a majority of the group's various brands.

Aquador turns 30 this year and this has been highlighted by the world premiere of the 400 HT earlier this year. The model is the largest Aquador has built in the brand's 30-year history and is the last boat in a series of three new boat models from Aquador that began to be launched in 2022. First was the 300 HT, which was followed last year by the launch of the Aquador 250 HT, and this year it was time for the 400 HT. The boats have been very well received and have received several awards and distinctions.

The 400 HT has a total length of just over 12 meters, a width of nearly 4 meters, 3 cabins, and a total of 8 berths as well as large areas for socializing. The Aquador 400 HT can be equipped with both inboard and outboard engines according to customers' requirements and wishes. Allt för sjön, with its roots dating back to the early 1900s, is one of the world's oldest boat shows. The fair traditionally kicks off the boating season in the Stockholm area and gathers a large number of exhibitors and visitors every year.
